Namen uporabe: nerjavni trakovi ARIA se uporabljajo za sestavljanje objemk večjih dimenzij od premera 80 mm. Z njimi pritrdimo in tesnimo prezračevalne in sesalne cevi za prah, ostrižke, opilke, ipd.

Application: we recommend bands ARIA to compose clamps bigger dimensions than diameter 80 mm. They are useful for secure or seal air ventilation, dust suction hoses.
